PROFESSIONAL EXPERIENCE

Online Stores & IT | Belmont Leather Company

Clifton, NJ | 2021 - Present

- Support day-to-day IT for a four-person business, including Windows workstations, printers, network devices, and endpoint troubleshooting.
- Administer ESET EDR and ESET Cloud Protect across approximately 15 endpoints; check endpoint security status and manage updates.
- Maintain email filtering and phishing defenses through ESET Cloud Protect; review suspicious messages and report or block them.
- Maintain UniFi networking and VLAN segmentation, a 10-camera UniFi Protect system, and TrueNAS SMB storage with scheduled cloud backups.
- Manage BigCommerce storefront operations and POS integration alongside IT support.

Theater Technician (Part-time) | Rowan University

2018 - 2020

- Operated and maintained lighting, sound, and life-safety systems for live productions, troubleshooting failures during events.
- Coordinated setup and teardown with student and faculty crews for rehearsals, performances, and campus events.

IT Help Desk Technician & Media Services Specialist | Southern New Hampshire University

2016 - 2018

- Provided Tier 1/2 help desk support, troubleshooting hardware, software, accounts, and malware issues.
- Maintained classroom and AV technology across campus for lectures, media playback, and events.

PROJECTS

Fakeboot: Storefront Impersonation OSINT | Independent

September 2026

- Mapped 14 suspected impersonation storefront domains to eight distinct checkout domains using public web and DNS evidence; published the mapping at fakeboot.paulromeo.net.
- Compared checkout routing and shared page-source fingerprints suggesting a connected operation; no individual operator was identified.
- Reported suspected impersonation concerns to registrars and platforms, documenting the submissions in the public case file.

EDUCATION

B.S. Cybersecurity & Information Assurance | Western Governors University, August 2026
