SUMMARY

Security-focused IT professional running security and IT end-to-end for a multi-channel e-commerce company: EDR, network defense, and incident response with attacker-infrastructure takedowns. B.S. Cybersecurity & Information Assurance (WGU, August 2026). Hands-on experience with phishing/BEC investigation, abuse-desk takedowns, ESET EDR administration, UniFi/Protect, and TrueNAS.

CERTIFICATIONS

- CompTIA PenTest+ (PT0-003) -- ID e3a26d1b0a1944db8e569cfa0ce20432 (Apr 2026 - Apr 2029)
- CompTIA CySA+ -- ID RWEXWLLS9NRE5JE2 (Aug 2025 - Aug 2028)
- CompTIA Security+ -- ID 2SY3TK06GJ44Q4WQ (Jul 2024 - Jul 2027)
- CompTIA Network+ -- ID N0BPXTXZFFV4QM3T (Jun 2024 - Jun 2027)
- CompTIA A+ -- ID G33N7H5ZJERE1F5W (Jun 2024 - Jun 2027)
- CompTIA Project+ -- ID K1MYZLGS02V415QJ (Jul 2025)
- ISC2 SSCP -- ID 1123939 (Jul 2025)
- ITIL 4 Foundation -- ID GR671719240PR (Dec 2024 - Dec 2027)
- LPI Linux Essentials -- ID LPI000661841 (Aug 2025)

EXPERIENCE

Belmont Leather Company -- Systems Administrator & Security Administrator Clifton, NJ | 2021 - Present

- Sole internal IT administrator: workstations, printers, storage, backups, network devices.
- Administer ESET EDR + ESET Cloud Protect (~15 endpoints): automated threat alerting, weekly CVE exposure review, endpoint update management.
- Investigate phishing and BEC attacks; perform attacker-infrastructure takedowns via registrar/host/abuse-desk reports (cases include a ClickFix campaign, a BEC impersonation attempt, an SSA/ScreenConnect lure, and brand-impersonation waves).
- Installed and configured UniFi network plus a 10-camera UniFi Protect surveillance system.
- Implemented TrueNAS storage server with SMB shares and scheduled cloud backup.
- Scaled BigCommerce platform integrated with POS: 389% sales growth, \$1.2M new revenue, \$12K costs cut via POS/e-commerce integration, +\$32K/year from customer relationship systems.

Rowan University -- Theater Technician (Part-time) 2018 - 2019

- Lighting, sound, and safety systems for 20+ productions.

Southern New Hampshire University -- IT Help Desk Technician & Media Services Specialist 2016 - 2018

- Tier 1/2 support for 200+ users, malware removal, security policy enforcement, classroom technology maintenance.

PROJECTS

- Signal Vault (github.com/p-romeo/signal-vault) -- open-source scam/phishing triage engine, TypeScript/React, 15+ detectors, 60 tests. Built from real IR casework.
- ctf-toolkit (github.com/p-romeo/ctf-toolkit) -- Python CTF tool suite with crypto tools covered by a pytest known-vector test suite.

SKILLS

ESET EDR administration | ESET Cloud Protect | Windows & Active Directory | endpoint hardening | vulnerability management | patch pipelines | backup & disaster recovery | phishing/BEC investigation | infrastructure takedowns | log analysis | Wazuh SIEM | Duo MFA | UniFi networking | UniFi Protect | TrueNAS/SMB | TCP/IP | DNS | VLANs | Wi-Fi | segmentation | Bash | Python | PowerShell | Git | GitHub Actions CI/CD | BigCommerce/Amazon/eBay platforms

EDUCATION

B.S. Cybersecurity & Information Assurance -- Western Governors University, August 2026

Capstone (D833): Wazuh SIEM deployment + Duo MFA proposal -- passed on first submission.
